1. This is an update of the Companies' legal action in Civil Suit No. PA-22NCC-49-07/2023. The ex-parte Anton Piller Order was executed on 31.7.2023 and continued until 2.8.2023. The court has fixed 10.11.2023 for the case management of the Companies' inter-partes application for Anton Piller Order and an application by the 1st to 8th defendants to set aside the ex-parte Anton Piller Order.

2. On 8.9.2023, the 1st to 8th defendants took out an application for further and better particulars of the Companies' statement of claim. On the same date, the 9th defendant also took out two applications, namely, one for discovery and the other for interrogatory, both allegedly on matters relating to the matters pleaded by the Companies in the statement of claim. These applications are now fixed for hearing on 30.11.2023.

3. On 20.10.2023, the 1st to 8th defendants filed and served their defence and counterclaim. The counterclaim relates to a claim to invalidate the Companies' Malaysian Patent No. MY-194779-A entitled "System and Method of Replacing Reel", which patent the Companies claim to have been infringed by the 1st to 8th defendants. The Court has directed the Companies to file and serve their reply to defence and defence to counterclaim filed by the 1st to 8th defendants, on or before 10.11.2023. In this respect, the Companies are advised by solicitors and verily believe that they have a meritorious defence against the counterclaim lodged by the 1st to 8th defendants.

4. On 20.10.2023, the 9th defendant filed and served his defence on the Companies. The Court has directed the Companies to file their reply to defence on or before 10.11.2023.
